SUBJECT: PurePower Technologies® (PPT) Remanufactured Turbochargers

September 07, 2017

Alliant Power is pleased to announce the release of PPT Remanufactured Turbochargers **AP90000** through **AP90002** for the Ford® 6.0L Power Stroke® applications listed in the table below. These PPT remanufactured turbochargers receive 100% new vane actuators, journal bearings, and thrust bearings as well as necessary components for installation. Each turbocharger is balanced using current state of the art OEM equivalent balancers and end of line tested to ensure desired performance.

Alliant Power also offers **AP91000** Turbocharger Vane Actuator and **AP63481** Turbo Installation Kit separately. For further information on the turbocharger vane actuator refer to [NPA 19/17](#). For further information on the turbo installation kit refer to [NPA 09/15](#).
