

NPA 68/15

SUBJECT: Alliant Power Chrysler®, Dodge®, and Jeep® Diagnostic Tools

November 13, 2015

Alliant Power is pleased to announce OEM Diagnostic Tool Kits **AP0108** through **AP0111** covering all Chrysler, Dodge, and Jeep vehicles. Four part numbers provide a range of diagnostic tool solutions.

Two Fully Rugged Computer Options:

The standard computer is the Panasonic® CF-19 Toughbook® (**AP0109**) with the option to upgrade to the lightweight Panasonic FZ-G1 Toughpad® (**AP0108**). Both refurbished computers are backed by a two year manufacturers warranty. **AP0110** Chrysler MicroPod II is available separately if a computer is not needed. **AP0111** Chrysler DRB 3 Emulator is available as an add on for pre-2006 vehicle diagnostic coverage.

Diagnostic Hardware, Software, and Licensing:

All Chrysler kits (except **AP0111**) include an annual software subscription covering the first year. Annual Chrysler WiTech Software subscription renewals are also available separately through Alliant Power (**AP0113**) for customers that need to renew existing equipment or purchasing **AP0111** DRB 3 Emulator and do not previously have a WiTech subscription.

Diagnostic Tool Registration:

Alliant Power diagnostic tools require registration in order to activate the software. Each kit includes a Diagnostic Tool Registration insert to assist with registration. Further information can be found on [APTB 15/15](#) or at alliantpower.com.

All OEM hardware are backed by Alliant Power's 13-month warranty.

See [NPA 65/15](#), [NPA 66/15](#), [NPA 67/15](#), and [NPA 69/15](#) for additional Alliant Power Diagnostic Tool Kit offerings for Ford®, GM®, Chrysler, Dodge, and Jeep vehicles.
