

NPA 66/15

SUBJECT: Alliant Power Ford® Diagnostic Tools November 13, 2015

Alliant Power is pleased to announce OEM Diagnostic Tool Kits **AP0102** through **AP0104** covering all Ford vehicles. Three part numbers provide a range of diagnostic tool solutions.

Two Fully Rugged Computer Options:

The standard computer is the Panasonic® CF-19 Toughbook® (**AP0103**) with the option to upgrade to the lightweight Panasonic FZ-G1 Toughpad® (**AP0102**). Both refurbished computers are backed by a two year manufacturers warranty. **AP0104** Ford VCM 2 is available separately if a computer is not needed.

Diagnostic Hardware, Software, and Licensing:

Each kit includes an annual software license covering the first year. Annual Ford IDS Software license renewals are also available through Alliant Power for customers that need to renew existing equipment (**AP0112**).

Diagnostic Tool Registration:

Alliant Power diagnostic tools require registration in order to activate the software. Each kit includes a Diagnostic Tool Registration insert to assist with registration. Further information can be found on [APTB 15/15](#) or at alliantpower.com.

All OEM hardware are backed by Alliant Power's 13-month warranty.

See [NPA 65/15](#), [NPA 67/15](#), [NPA 68/15](#), and [NPA 69/15](#) for additional Alliant Power Diagnostic Tool Kit offerings for Ford, GM®, Chrysler®, Dodge®, and Jeep® vehicles.
