

NPA 01/15

SUBJECT: AP0074 Injector Test Kit and AP0075 Injector Test Kit O-ring

February 4, 2015

Alliant Power is pleased to announce the release of **AP0074** Injector Test Kit. This kit is used in testing 6.4 L Ford® and MaxxForce® 7 (pre-2010 emissions) injectors on the Bosch® EPS 205 Test Bench. AP0074 Injector Test Kit includes harness, return fuel collector, and an additional O-ring for the collector.

Additional O-rings are available separately in **AP0075** Injector Test Kit O-ring due to the wear of this component during normal use.

See Alliant Power Technical Bulletin [APTB 01/15 R1](#) for operating instructions and Alliant Power Technical Bulletin [APTB 02/15 R2](#) for programming instructions.

AP PART NUMBER	DESCRIPTION	APPLICATION
AP0074	Injector Test Kit	EPS 205 Test Bench
