

SUBJECT: AP63646 Remanufactured High-Pressure Fuel Pump (HPFP) Kit and Updated AP0073 High-Pressure Fuel Pump (HPFP) Installation Kit

Alliant Power is pleased to announce the release of **AP63646** Remanufactured High-Pressure Fuel Pump (HPFP) Kit for the Navistar® application listed in the table below. Each pump is remanufactured in-house and bench tested to ensure desired performance. In conjunction with this release is an update to **AP0073** High-Pressure Fuel Pump (HPFP) Installation Kit which now includes the engine to HPFP electrical harness and related components. Alliant Power recommends replacing this harness 100% of the time when installing AP63646 or reinstalling an existing pump. AP63646 HPFP Kit includes the pump and updated AP0073 HPFP installation kit. AP0073 HPFP Installation Kit is also available separately for reinstalling an existing pump. Both AP63646 and AP0073 kits are part of Alliant Power's value add **EXCLUSIVEKITS** line providing all necessary components to complete the job!

Alliant Power recommends installing the updated **AP63480** Fuel Supply Hose for MaxxForce® 7 EPA 2010 engines built prior to 04/06/2011. For further information on the fuel supply hose refer to [NPA 09/14](#).
