

SUBJECT: Pre-Programmed Fuel Injection Control Module (FICM)

Alliant Power is pleased to announce the launch of 10 Navistar® Remanufactured Fuel Injection Control Modules (FICMs) programmed to meet the specific ECM programming reference numbers found in the table below.

Each FICM is remanufactured in-house, bench tested to ensure units are pre-programmed to match each specific Navistar reference number and tested to ensure desired performance. It is imperative to verify the ECM reference number prior to ordering. Choosing the wrong part could cause catastrophic engine failure. For proper ECM reference verification, refer to [APTB 01/20](#) or call Technical Support at 800.735.9775.

All FICMs are backed by Alliant Power's 24-month, unlimited mileage warranty, as well as Alliant Power's best in class technical support.

EXCLUSIVE PARTS

AP part number	ECM reference number	Year range	Application
AP65126	ANZKHA03	2004-2006	I6
AP65127	ANZKLA03	2004-2006	
AP65128	ANZNHA04	2004-2006	
AP65129	ANZNHB00	2004-2006	
AP65130	ANZNLA04	2004-2006	
AP65131	AQZ0AT04	2006-2009	V6
AP65132	AHZ7AI07	2002-2006	V8
