SUBJECT: AP0056 2 Wire Pigtail

April 12, 2012

Alliant Power is pleased to announce the release of the **AP0056 2 Wire Pigtail** for 2 wire sensor connections used in the Ford® and Navistar® applications listed below. These connectors are subjected to high temperatures in the engine compartment and after time, become brittle and can break while being removed. This pigtail can be used on the **AP63437** Engine Oil/Coolant/Fuel Temperature (EOT/ECT/FT) Sensor and provides a cost effective repair over harness replacement.
