

NPA 12/18
SUBJECT: AP63505 Water Pump
May 10, 2018

New Product Announcement

Alliant Power is pleased to announce an update to **AP63505** Water Pump for the Ford® 6.7L Power Stroke® application listed in the table below. Alliant Power introduced **AP63505** and **AP63506** Water Pumps that utilized a water jacket housing which differs by application. It has been determined the water pumps tend to fail more than the housing. To address this issue Alliant Power is now offering the water pump separate from the housing. This water pump is for use on both the single and dual alternator models as the secondary water pump.

NPA 40/15 (AP63505 Water Pump) and NPA 43/15 (AP63506 Water Pump) will be obsolete due to this NPA.

AP PART NUMBER	OBSOLETE PART NUMBER	DESCRIPTION	YEAR RANGE	APPLICATION	OEM PART NUMBER
AP63505	AP63505 (Prior to May 03, 2018)	Dual Alternator, Secondary Water Pump	2011–2015	F Series®	BC3Z8501B PW503
	AP63506	Single Alternator, Secondary Water Pump			BC3Z8501C PW504
