# APTB 01/16 SUBJECT: Scan Tool Touch Screen Calibration February 05, 2016

ALLIANŤ POWER

The computers supplied with the Alliant Power scan tool packages feature touch panel displays. Follow the steps below to calibrate the touch panel in the event the touch points do not seem accurate.

Calculator	Music
Sticky Notes	Computer
Snipping Tool	Control Panel
🧭 Paint	Devices and Printers
XPS Viewer	Default Programs
Windows Fax and Scan	Help and Support
All Programs	
٩	Shut down 🕨
📀 ⋵ 🚞 🖸 🖽	

### Step 1.

Select *"Control Panel"* within the Windows start menu.

## Step 2.

Select "Tablet PC Settings".

Calibrate pen or touch input screens	
What type of screen do you wan	t to calibrate?
→ Pen input	
Touch input	
· ·	Cancel

### Step 3.

Select *"Calibrate"* and then select *"Pen"* or *"Touch"* depending on which function is being calibrated.

### Step 4.

Follow the on screen prompts and select *"Yes"* to save the calibration data once completed.
