

APTB 15/15

SUBJECT: Diagnostic Tool Registration

November 13, 2015

Alliant Power Diagnostic Tool Kits include a one year software subscription. The tool must be registered with Alliant Power in order to activate the subscription. Please see Alliant Power Product Instruction [Diagnostic Tool Registration](#) for further information regarding diagnostic tool registration. This registration form is also included with each Alliant Power Diagnostic Tool Kit.

APPI Diagnostic Tool Registration

This document serves as a guide to registering Alliant Power Diagnostic Tools, which is required in order to activate the software. This document comes with each Alliant Power Diagnostic Tool and is also available on the Alliant Power website in fillable PDF form on the Product Instructions page.

Registration Methods:
Please email this completed document to toolregistration@alliantpower.com or call Alliant Power Technical Support (866.283.1785) and select the diagnostic tool registration option. Please have the below information prepared to streamline the registration and activation process when calling in.
