

NPA 67/15

SUBJECT: Alliant Power GM® Diagnostic Tools November 13, 2015

Alliant Power is pleased to announce OEM Diagnostic Tool Kits **AP0105** through **AP0107** covering all GM vehicles. Three part numbers provide a range of diagnostic tool solutions.

Two Fully Rugged Computer Options:

The standard computer is the Panasonic® CF-19 Toughbook® (**AP0106**) with the option to upgrade to the lightweight Panasonic FZ-G1 Toughpad® (**AP0105**). Both refurbished computers are backed by a two year manufacturers warranty. **AP0107** GM MDI available separately if a computer is not needed.

Diagnostic Hardware, Software, and Licensing:

Each kit includes an annual GM Vehicle Communication Interface software subscription covering the first year. The annual GM Vehicle Communication Interface subscription is also available through Alliant Power for customers that need to renew software equipment (**AP0114**). Please see [NPA 69/15](#) for further GM subscriptions offered through Alliant Power.

Diagnostic Tool Registration:

Alliant Power diagnostic tools require registration in order to activate the software. Each kit includes a Diagnostic Tool Registration insert to assist with registration. Further information can be found on [APTB 15/15](#) or at alliantpower.com.

All OEM hardware are backed by Alliant Power's 13-month warranty.

See [NPA 65/15](#), [NPA 66/15](#), [NPA 68/15](#), and [NPA 69/15](#) for additional Alliant Power Diagnostic Tool Kit offerings for Ford®, GM, Chrysler®, Dodge®, and Jeep® vehicles.
